

Job Profile: Bartender

Job Title: Bartender
 Manager: Team leader

Job Description

As our bartender at Bar Kantoor, you have no problem at all memorizing multiple orders at once, refilling the grab-and-go and preparing 4 cappuccino's for the terrace is easy peasy lemon squeezy for you. You feel like a fish in the water – or wine – behind and in front of the bar. This means that you are aware of drunk guests (you know the fine line between the fun and not-fun types of drunk), when and where glasses are empty, and of course which guest needs a little chat.

Inspiring guests and making a connection with them is one of the most important things in our book, and that is what we try to focus on. We are authentic, personal, and have a sense of humour! You enjoy informing the guests about all the fun events and happenings in Amsterdam and on the Westergasterrein. Additionally, you enjoy telling the guests all about Conscious Hotels and Bar Kantoor and what we stand for. All of the products within Bar Kantoor are organic, and the kitchen makes use of all sorts of techniques in light of sustainable cooking. We are proud of this beautiful concept! Therefore it is important and fun to share this with the guests.

Because we strive to have a full bar every day of the week, you need to know how to handle stress, but that is also the part of the job that makes it so fun, right? Of course the workplace needs to be ready for service, so that is also part of your job description, as well as keeping the bar tidy.

Once in a while an event...

Have you ever visited our Bierfeest during the Amsterdamse Hotelnacht? Then you know how epic our events can be. Would you not love to be part of that? With so many options to show off your F&B skills, do not hesitate, and come work with us!

- You do not hold back when it comes approaching people and you make connections easily
- You want to save the planet, but you are not a 'sustainability doorbitch'
- Affinity with organic- and sustainability trends, a real healthy food- and drinks lover: all of our F&B items are organic!
- You enjoy working and you have fun working with colleagues
- Certain level of knowledge (Google offers half the answers..)
- Flexible, and no, we are not referring to your yoga skills 😊
- You are pro-active

Job Requirements

- You have experience in the hospitality industry
- Fluent in Dutch and English, any other additional language is a bonus
- Preferably living in- or around Amsterdam
- You have fun working independently as well as in team
- Service-minded, open personality and passionate about great service
- Flexible to work in weekends and evenings
- Bonus points if you have prior knowledge of HACCP
- Have fun; a very important part of the job 😊
